26. C 86-096 BTR vs. Roger A. Plate, Architect #08286  
Respondent may have violated city and national electrical codes; he may not have applied technical knowledge and skill; he may have engaged in practice outside his category of registration

Mr. Riggs moved and Dr. O'Bannon seconded to authorize the Chairman to sign the Consent Order of \$1,000 and Assurance of Discontinuance. MOTION CARRIED UNANIMOUSLY.

VII. Evaluation Committees Report (EXHIBIT A)

Mr. Mlnarik moved and Mr. Riggs seconded to accept the Evaluation Committees Report as shown in Exhibit F. MOTION CARRIED UNANIMOUSLY.

VIII. October 1986 Structural Exam Results (EXHIBIT B)

Mr. Mlnarik moved and Mr. Kesler seconded to accept the Structural Examination results as shown in Exhibit G. MOTION CARRIED UNANIMOUSLY.

IX. Registration Grant List (EXHIBITS H & F)

Mr. Mlnarik moved and Mr. Riggs seconded to grant registration numbers to applicants Blackledge (Architects) through Weigand (Geologists), numbers 20399 through 20548, Arenas through Williams (Engineers-in-Training), numbers 3797 through 3821, and Morales (Architect-in-Training), number 715, as shown in Exhibit H.

X. Standing Committee Reports

A. Education and Examination

Dr. O'Bannon stated he did not have a report.

B. Legislative and Rules

Mr. Mlnarik thanked his committee for meeting several times before this meeting and getting rules well under way. The Board members should have a copy of the draft before the June meeting.

Mr. Cella stated that the Rules Committee should differentiate between structural and civil engineering. NCEE should be contacted.

Foreign registration and experience should not waive the taking of examination. NCARB or NCEE certificates or the taking of examinations is a requirement for total consistency in registration.

C. Finance

Mr. Dalrymple informed the Board that money had been approved to pay for the office furniture. The budget hearings have begun for next year's budget. The initial recommendation from the budget analysts at the Governor's office and the legislature were \$20,000 less than the \$660,000 requested.

XI. Other Business

A. Discussion of Lapsed Registration Policy

Mr. Dalrymple stated this was brought up by a registrant whose registration lapsed. Registrants are sent three expiration notices before their registrations are actually cancelled by the Board. It is the registrant's responsibility to notify the Board of any change of address.

It was suggested that the staff review local phone books to see if registrants are listed and, if so, advise them their registrations need renewal. Mr. Dalrymple suggested listing these registrants in the Newsletter and asking that the recipients notify the people they know whose names appear on the list.

B. Discussion of AIPG Certification as Exemption from Registration

Mr. Jacobs stated he needed direction as to whether the Board accepts the AIPG certificate in lieu of examination. Mr. Cella informed him that the AIPG Certificate as an exemption from taking the examination had been written out of the proposed new rules.

C. Discussion of Design of Fire Protection Systems

Mr. Palmer stated a meeting on Fire Protection Systems had been held. The fire sprinkler group are in favor of requiring a P.E. stamp on all fire sprinkler drawings. If the Attorney General's office feels that it is within the law to enforce, the ruling will be enforced after action at the June meeting.

D. Discussion of Foreign Evaluation Services

Mr. Dalrymple stated that literature had been requested from five foreign education evaluation firms. The Board was asked whether it should require this service to help evaluate foreign-educated applicants. Mr. Cella directed a committee chaired by Dr. O'Bannon to examine these five organizations and recommend the one organization to be selected.

## E. Attorney General's Construction Observation Opinion

Mr. Dalrymple stated that Representative Sterling Ridge had requested an Attorney General opinion on "Does construction review and observation fall within the scope of architectural practice and engineering practice defined under A.R.S. 32-101?" The Attorney General has issued an opinion (I87-022) stating that construction observation must be done by a registrant. Assistant Attorney General Greg Harris said he feels that construction observation is required by the law on non-exempt projects under 32-144. The definition of engineering and architectural practice includes construction review for the purpose of determining compliance with plans.

One of the reasons HB 2167 was written was to clarify whether a registrant would have to inspect a project.

## F. Complaint Handling Procedure

Mr. Dalrymple stated this was brought up by Mr. Riggs on an Enforcement case. Mr. Riggs wondered when a registrant should be notified there is a complaint on him whether legitimate or not. It was suggested that Respondent be notified by letter the same day that investigation of his work is begun.

## G. Discussion of Certificate of Employment

Mr. Kesler stated this was brought up because the form needs modification for more accurate information in return. Mr. Dalrymple stated that the California Engineering Board sends out to applicants a form that forces them to list what they did at each place of employment in detail; they then send the form to their past employers who compare their observations to what the candidate wrote on the reverse side. Mr. Palmer suggested that on the form for verification of registration to other states staff not write what type of engineer the applicant is but to have employer write it in. Mr. Dalrymple suggested that the applicants mail the certificates of employment to their employers instead of staff mailing them to avoid being accused of not mailing the material.

Mr. Kesler suggested a work sheet be included with the files and have Board member doing evaluation check of 10. He goes through the file after staff has checked routine questions.

H. Discussion of California Architectural Board Registration and Reciprocity

Mr. Riggs stated that California was writing their own examination for June and an additional two years and that California was talking to NCARB about reciprocity. Mr. Dalrymple stated that California had given the Board 200 names of candidates who wanted to take the Arizona exam along with the California exam. Mr. Dalrymple stated that the administration of 200 exams would cost approximately \$20,000. Ms. Waxman wanted to know whether NCARB would reimburse or whether the California applicants could be charged an out-of-state fee. Mr. Dalrymple stated the June exams are budgeted in next year's budget and he had requested additional funds to cover the California applicants! The Attorney General's advice was requested on whether California applicants could be handled differently.

I. Discussion of National Council of Architectural Registration Boards Intern Development Program

Mr. Riggs stated this had been discussed at the Rules Committee meeting the day before and would be addressed in the proposed rules.

J. Discussion of Elimination of In-Training Examination

Mr. Riggs stated NCARB no longer publishes their exams grouped by in-training, qualifying and professional. The in-training exam is now included in the professional exam. He asked for the Attorney General's advice on eliminating in-training from the rules.

Mr. Palmer moved and Dr. O'Bannon seconded not to eliminate engineer-in-training. MOTION CARRIED UNANIMOUSLY.

K. Discussion of Evaluation Advisory Committee.

Mr. Riggs suggested that a committee be appointed and given a procedure to follow to evaluate the new applicants' files. Mr. Dalrymple stated he still preferred staff doing the routine investigations, i.e., reciprocity, etc. Mr. Kesler suggested a work sheet be included with the files and have Board member doing evaluation check off as he goes through the file after staff has checked routine questions.

change 37-144 - Exemptions, slightly by adding "alterations by adding" to the present rule.

L. Discussion of Exam Review and Regrade Procedure

Mr. Dalrymple stated this was brought up to explain the procedure for regrades. A system has been initiated where the applicant has to file a letter of more definite statement saying precisely why he feels he passed instead of failed. Mr. Busby, an NCARB grader, has looked at architect applicants' statements, the original grade sheets and comments that came back from NCARB and pointed out those areas where the applicant is wrong in his suppositions of why he should have passed the exam and more clearly define why he failed. The Executive Director then holds an informal meeting with the applicant and advises him what procedures are available at this point and what it will entail (formal hearing before the Board).

Mr. Mlnarik advised that the decision to deny regrading of exams failed by 10% or more needed to be designated as a rule to be enforced.

M. Professional Certification of Development Plans

Do tentative plans require a land surveyor's seal? A committee chaired by Mr. Riggs and whose members are Messrs. Palmer, Cella and Jacobs, was appointed to take a look at the development plan process and determine from the Board's Rules and Regulations whether or not certain registrants are required to stamp anything. Mr. Cella suggested Mr. Riggs ask Benny Young to provide all documentation.

N. Discussion of HB 2316

Mr. Dalrymple stated that HB 2316 proposed to change 32-144 in the area of waste water plans from \$5,000 exemption to a \$25,000 exemption. Mr. Cella said this allows water companies to design a large pumping facility, water storage facility or pipe line facility on the back of a napkin, build it and serve water to people without the State Health Department's inspection. Mr. Kesler moved and Ms. Waxman seconded to leave 32-144 as is. MOTION CARRIED UNANIMOUSLY.

O. Discussion of HB 2167

Mr. Dalrymple stated that the interior designers opposed this bill on the basis that it will put them out of work. It was proposed to change 32-144 - Exemptions, slightly by adding "alterations by adding" to the present rule.

XII. Future Board Items

There were no items to be put on the agenda at this time.

XIII. Future Board Meetings

June 5 and August 28 were set for the next two Board meetings.

XIV. Adjournment

Mr. Palmer moved and Mr. Kesler seconded to adjourn.  
MOTION CARRIED UNANIMOUSLY.

- Mr. Riggs moved and Mr. Mlnarik seconded to dismiss. MOTION CARRIED UNANIMOUSLY.
24. C 86-139 BTR vs. Raymond C. Taylor, P.E. (Structural) #05056, (Civil) #10228  
Respondent may not have applied the technical knowledge and skill, "A registrant shall apply the technical knowledge and skill which would be applied by other qualified registrants who practice the same profession."
- Mr. Riggs moved and Mr. Mlnarik seconded to dismiss. MOTION CARRIED UNANIMOUSLY.

## IX. Request for Review of Examination (EXHIBIT B)

- A. Mr. Riggs moved and Mr. Lendrum seconded to send Mr. Mark Chalmers' exam back for regrading. MOTION CARRIED - 4 ayes and 2 nos.
- B. Mr. Riggs moved and Mr. Lendrum seconded to send Mr. Peter Olszewski's exam back for regrading. MOTION CARRIED - 4 ayes and 2 nos. The motion was reconsidered because of low score of 62. Request was denied.
- C. Mr. Riggs moved and Mr. Lendrum seconded to send Mr. Donald Jensen's exam back for regrading. MOTION CARRIED - 4 ayes and 2 nos.

## X. Evaluation Committees Reports (EXHIBITE)

Mr. Mlnarik moved and Mr. Lendrum seconded to accept the Evaluation Committees Report as shown in Exhibit E. MOTION CARRIED UNANIMOUSLY.

Mr. Mlnarik moved and Mr. Riggs seconded to accept the April 1987 Assayer, Geological and Engineer Examination results. MOTION CARRIED UNANIMOUSLY.

## XI. Registration Grant List (EXHIBIT F)

Mr. Mlnarik moved and Mr. Lendrum seconded to grant registration numbers to applicants Addington (Architects) through Tachau (Structural Engineers), numbers 20739 through 20873, Alejandro through Salazar (Engineers-in-Training), numbers 3836 through 3844, and Terhune (Architect-in-Training), number 719, as shown in Exhibit F.

## XII. Cancellation of EIT Registration (EXHIBIT G)

Mr. Cella had a conflict of interest. Mr. Lendrum moved and Mr. Riggs seconded to advise Ms. Catherine Geever that the Board would not take any action on her request of cancellation; she'd be asked to reconsider. MOTION CARRIED.

## XIII. Standing Committee Reports

## A. Education and Examination

Dr. O'Bannon was not present to give his report.

B. Legislative and Rules

Mr. Mlnarik asked the Board members to review the draft of the rules that had been distributed and write their input to be discussed at a special meeting being held July 15 in Mr. Riggs office at Architecture One.

C. Finance

Mr. Dalrymple informed the Board that the budget for FY 87/88 had been approved at \$619,800, an increase of \$62,000 over FY 86/87. Out-of-town travel has been cut in half. Twenty thousand dollars has been reimbursed for validation of exams. A transfer of monies between categories has been requested to cover formal hearings, if not approved, hearings would be cancelled.

XIV. Results of Landscape Architect Regrading

Mr. Mlnarik moved and Mr. Lendrum seconded to accept CLARB's graders' results in Messrs. Killip and Swartz regrading of their exams - no additional points. MOTION CARRIED UNANIMOUSLY.

XV. Request for Formal Hearings and/or Regrades

- A. Mr. Lendrum moved and Mr. Riggs seconded to send Mr. Moore's exam back to CLARB for regrading. MOTION CARRIED UNANIMOUSLY.
- B. Mr. Riggs moved and Mr. Lendrum seconded to grant Mr. Saletta a hearing the twenty-ninth or thirtieth of this month. MOTION CARRIED UNANIMOUSLY.
- C. Mr. Riggs moved and Mr. Palmer seconded not to adjust Mr. Stephens' score because of inconsistency with Board policy and regulations and that if he does request for a hearing, schedule hearing for June 29 or 30. MOTION CARRIED UNANIMOUSLY.

XVI. Other Business

A. Discussion and Action on Photogrammetry and Surveying Registration (EXHIBIT H)

Mr. Dalrymple briefly stated what Mr. Kesler would have covered had he been present. The practice of photogrammetry is covered in the definition of Land Surveyor and he feels that topographic maps are Land Surveying documents and should be stamped whether or not done under the direct supervision of a registrant working with the photogrammetrist. Mr. Jacobs moved and Mr. Riggs seconded to have Mr. Kesler give his extensive report at next meeting. MOTION CARRIED UNANIMOUSLY.

B. Discussion and Action on Transportation Engineer Registration (EXHIBIT I)

Mr. Bob Darr of Coe and Van Loo Consulting Engineers, represented the Institute of Transportation Engineers, which was seeking registration of the Transportation Engineers. He read from a publication by Wolfgang Hobberger of UC/Berkley that states that Transportation Engineers should have separate registration from civil engineering because it is a specialty in itself. Most registrants practicing transportation/traffic engineering are Civil Engineers who over several years have specialized in this area. Mr. Darr mentioned that with the new state traffic funding program of \$5 billion, it should be most essential to Arizona residents to make sure that qualified people are doing the designing and administering of these facilities.

Mr. Ed VanDerGinst was also representing the Institute of Transportation Engineers in Scottsdale. He offered to send a copy of their newsletter. Mr. VenDerGinst stated the package put together for consideration of registration of Transportation Engineers consisted of three parts:

1. general comments on registration of Traffic Engineers,
2. requirements for grandfathering of that discipline,
3. definition of Transportation Engineer.

Mr. VanDerGinst stated there is a different direction of education for Traffic Engineers than Civil Engineers; civil engineering is part of the education--you don't have to be a full-blown Civil Engineer to be a Traffic Engineer. Skills required to be a successful Traffic Engineer go beyond engineering --analysis, skill in communication, knowledge of politics, psychology, management, to name a few. Three states recognize and register Transportation Engineers --California, New Jersey and Oregon.

Mr. Dalrymple was directed to ask NCEE about testing of Transportation Engineers; what is required by the three states mentioned.

C. Discussion and Action on A.A.C. R4-30-207.A(2) Requirements (EXHIBIT I)

Mr. Dalrymple stated A.A.C. R4-30-207A(2) needed some clarification whether an individual should be held for examination with ten years practice in another state. Mr. Harris said A.R.S. 32-126 provides three instances where an individual can get registration without examination. It was decided that two Board members would review each request for registration under A.R.S. 32-126(3).

D. Discussion of Adoption of NCEE's Committee on Experience Qualifications Recommendation (EXHIBIT J)

Mr. Dalrymple was directed to ask NCEE for clarification on their Committee on Experience Qualifications. (EXHIBIT L)

E. Delegate Credentials to NCARB's Annual Meeting to be held June 23-37 in Seattle

Mr. Riggs moved and Mr. Jacobs seconded that Mr. Lendrum attend NCARB's annual meeting in Seattle. MOTION CARRIED UNANIMOUSLY. Mr. Riggs moved and Mr. Lendrum seconded that, provided there were funds, Mr. Dalrymple be allowed to attend. MOTION CARRIED UNANIMOUSLY. (M)

F. Discussion and Action on Shop Drawing Sealing Requirements (EXHIBIT K)

Mr. Riggs moved and Mr. Jacobs seconded to give shop drawing sealing requirements to Advisory Committee for clarification. MOTION CARRIED UNANIMOUSLY.

G. Discussion and Action on Certification of Development Plans

Mr. Riggs stated that the subject of certification of development plans was brought up by the City of Tucson when they requested for clarification of the responsibilities of the architect in A.R.S. 32-101 B(3). Who should be responsible for sealing plans? There is a requirement in the law for architect input in the site development work. The Board recommended a committee talk this issue over with the City of Tucson and express the Board's concern.

H. Discussion and Action on Fire Protection System Registration Requirement (EXHIBIT N)

The design of fire protection systems for buildings or structures not exempted by statute constitutes the practice of engineering and designs must be prepared by qualified registrants.

Realizing the current practice is not consistent with this decision, the Board will not take enforcement action against non-registrants who design fire protection systems for nonexempt buildings or structures that have been issued a building permit prior to 1/1/88, except in those cases involving design of systems to be installed in buildings or structures in excess of two stories and/or 25,000 sq. ft..

I. Discussion and Action on American Institute of Land Surveying (EXHIBIT L)

Mr. Bob White of the American Institute of Land Surveyors introduced himself and the Institute to the Board. The Board appointed Mr. Kesler and Dr. O'Bannon to review the Institute's curriculum and whether it was ABET accredited.

J. Discussion and Action on Construction Observation - Attorney General Opinion I87-022 (R86-196) (EXHIBIT M)

Mr. Kent Hamm with Western Technologies was present to express his concern on construction observation. Is the designer responsible for inspections? The registrant designing a structure is not responsible for observation. Mr. Dalrymple was directed to write the Attorney General's Office and ask whether construction observation and construction inspection are required on a nonexempt structure.

K. Discussion and Action on Exam Review Procedure

Mr. Dalrymple was directed to contact NCEE on their exam grading procedure.

L. Discussion of Need for Assays on Precious Metals Imported into the State with a Statement of Purity

Mr. Dalrymple was directed to write the Attorney General's Office asking if a person certifies to the purity of a metal, must he be an assayer.

M. Authorization to Pay Witness Expenses for Formal Hearings

Mr. Lendrum moved and Mr. Riggs seconded to authorize to pay witness expenses for formal hearings. MOTION CARRIED UNANIMOUSLY.

N. Registration Without Examination for Holders of Foreign Certificates

It was decided that two Board members would review each foreign applicant file to determine whether that person would be allowed registration without examination.

XVII. Future Board Items

There were no items to be put on the agenda at this time.

XVIII. Future Board Meetings

June 29 or 30 were set up for two formal hearings; July 15 was set up for a special rules meeting; and August 28 was set up for the next Board meeting.

XIX. Adjournment

Mr. Lendrum moved and Mr. Jacobs seconded to adjourn. MOTION CARRIED UNANIMOUSLY.

OPEN SESSION MINUTES

ARIZONA BOARD OF TECHNICAL REGISTRATION

JULY 15, 1987

I. Call to Order

The special meeting of the State Board of Technical Registration held at Architecture One, 6303 E. Tanque Verde, Suite 200, Tucson, Arizona 85715, was called to order by Vice Chairman, Ronald J. Mlnarik at 9:00 a.m.

II. Roll Call

Ms. Douglas took roll call.

- PRESENT: Ronald J. Mlnarik, Vice Chairman
- Peter A. Lendrum, Member
- Michael G. Jacobs, Member
- Stewart R. Palmer, Member
- John B. Riggs, Member

Ronald W. Dalrymple, Executive Director  
LaVern Douglas, Licensing Manager

- ABSENT: Paul W. Cella, Chairman
- Charles E. O'Bannon, Secretary
- Jack M. Kesler, Member
- Ellen Waxman, Member

Those present constituted a quorum.

III. Evaluation Committees Report

(EXHIBIT A)

Mr. Riggs moved and Mr. Lendrum seconded to accept the Evaluation Committees Report. MOTION CARRIED UNANIMOUSLY.

IV. April 1987 Professional Engineer, Geologist, Engineer-in-training, Land Surveyor-in-training and Geologist-in-training Examinations Results

(EXHIBIT B)

Mr. Palmer moved and Mr. Lendrum seconded to accept the April 1987 Examinations results. MOTION CARRIED UNANIMOUSLY.

## V. Registration Grant List

(EXHIBIT C)

Mr. Riggs moved and Mr. Palmer seconded to grant professional registration to Architect Patrick W. Dulaney #20874 thru Geologist Allan Divis #21003 and in-training registration to Engineer-in-training Fadi Al Jalaghi #3845 thru Land Surveyor-in-training Juan Lomeli #00043. MOTION CARRIED UNANIMOUSLY.

## VI. Review of Qualifications

## A. Kenneth Ray Sutton, Jr.

Mr. Palmer stated that he had reviewed Mr. Sutton's file and that he is a registered engineer in Colorado and Wyoming by reciprocity, however, he does not meet Arizona's standards of having four years of experience under a professional engineer. Mr. Riggs moved and Mr. Lendrum seconded to accept the Evaluation Committee's recommendation. MOTION CARRIED UNANIMOUSLY.

## B. Joseph E. Jason

Tabled until Mr. Cella available for review.

## C. Ronald Edward Franz

Tabled until Mr. Cella available for review.

## VII. Review of Proposed Rule Changes

Mr. Palmer wondered why R4-30-102, 103, 104 and 105 had been omitted. Mr. Dalrymple stated that according to Attorney General's office they were nothing more than internal policies and do not belong in the rules. He suggested they be included in the Policy Manual or Board Member Manual. Mr. Mlnarik asked that a draft of the Board Member Manual be available for the September meeting.

R4-30-106 Fees - Mr. Dalrymple stated that some of the fees were going to change from what they are now because of changes in the national associations and the possibility of contracting out the tests administration. Mr. Mlnarik referred to "Regrading of Examination (if authorized by the Board) - \$65.00," and stated that applicants have appealed several items on their exam and the Board is being charged on a per item basis; this item needs to be expanded upon in order to cover the Board's costs. He added whether there should be another fee added for the applicants appealing for a formal hearing by the Board.

Mr. Riggs stated he was against charging for appeals, however, make sure to appropriate for them in the budget. Mr. Riggs referred to "Division E, Structural Technology - Lateral Forces (national) - \$25," and stated that NCARB is developing an exam for lateral forces and the cost needs to be included.

R4-30-107 Registration expiration dates - Mr. Palmer suggested that since the Board would not be going through a sunset review until 1996, the expiration dates should be expanded through 1996. Mr. Dalrymple suggested through 1993 because the rules were revised every five years.

R4-30-201 General application requirements - Mr. Mlnarik referred to "A. A candidate seeking registration as a professional ... shall complete the application form ...," and wondered whether this was necessary. Mr. Dalrymple stated that "32-123 Application for Registration" of the statutes said they had to complete the application form prescribed by the Board. Mr. Riggs referred to "... all candidates shall ... have certified transcripts sent ...," and there might be some candidates who do not have transcripts. He suggested inserting "when applicable." Mr. Palmer asked about having "experience under a registrant" written somewhere in this rule; it is not pointed out and many applicants are spending their money not aware of this. Mr. Riggs referred to A. 5. "... good moral character and repute"; he felt the Board should only be interested in investigating the applicant's character. Mr. Lendrum suggested adding "education, experience credentials, moral character and repute" leaving 'good' out. Mr. Palmer wondered about the appendices referred to. Mr. Dalrymple stated the forms would be given to the applicants along with instructions. Mr. Palmer stated he was suggesting to change "may" to "will" in "Foreign evaluation service acceptable to the Board may be required of foreign education applicants" and "... be provided at applicants' cost."

R4-30-203 Application for in-training programs - Mr. Mlnarik mentioned discussing this with Ms. Douglas and 60 days was not sufficient time to process and evaluate application and notify applicant. Mr. Palmer suggested that number be changed from 60 to 90 days.

Educational Credit - Number to be assigned by legislature. Mr. Mlnarik stated that the intent of this rule was to list all education-related content in one section.

R4-30-204 Examinations; general - Mr. Palmer stated that enforcement of the rules had been directed towards the building industry. He wondered about aeronautical, agricultural, industrial, metallurgical, mining, nuclear or petroleum engineering; were these branches needed in the rules. Mr. Palmer recommended discussing this and the rest of the rules with the whole Board at the August meeting. He then referred to "All transcripts, Certificates of Experience and other required materials must be received by the Board at least 45 days prior to the examination date." under B; 45 days was not sufficient time. He recommended changing it to 60 days and 120 for filing of applications for professional registration. Mr. Riggs recommended another Certificate of Experience to certify that he was in fact working between the filing of his application and the time the exam results were returned. He suggested sending the certificate to the applicant stating that he had passed his exam and he must now fill the certificate out and send back to the Board before his registration is granted. Mr. Riggs suggested adding "after first taking and passing ..." in D.4. Mr. Palmer referred to E. "If a candidate fails to pass ... for which he is eligible ..." and suggested changing "he" to "the candidate." Mr. Riggs stated "If a candidate fails to pass ... after taking any part ..." should read, "... after first taking ..." He further suggested changing "... 10 percentage points ..." in F. to "5 grade points." Mr. Palmer referred to "table" in G. and suggested changing it to "hold."

R4-30-206 Admission to the professional examination; out-of-state candidates with in-training status - Mr. Mlnarik suggested leaving out "... as a professional architect ..." and have it read, "A candidate for registration who had successfully completed an in-training examination in another jurisdiction, which is equivalent to those examinations administered in Arizona, will be admitted to take the professional examination."

R4-30-207 Registration without examination - Mr. Mlnarik questioned "The Board will register without examination a ..." in A.; should be "may register."

Mr. Riggs thought NCEE and CLARB should be listed along with NCARB as certificates of qualification under A.

Educational Credit - Number to be assigned by Legislature. Mr. Mlnarik stated that the intent of this rule was to list all education-related context in one section.

87-194

Mr. Palmer suggested a "masters or doctorate degree" under A.1.e. He also suggested the same for all other branches.

Mr. Riggs suggested a general statement at the beginning of the Rule.

Mr. Mlnarik referred to 2.a. and added "within the United States."

Mr. Riggs suggested adding "experience between the time the application is submitted and the time the examination is actually taken" to the bottom of B.

R4-30-212 Architect-in-training registration requirements  
Mr. Dalrymple suggested striking through "or an equivalent credit shall be given in accordance with Appendices A and B ..." to the end of the sentence in A. and unstriking the first sentence in C.

Mr. Palmer referred to B.4. Building Design and suggested striking through after "specifications."

Mr. Riggs suggested a guideline from NCARB in terms of what they consider experience.

VIII. Adjournment

Mr. Palmer moved and Mr. Riggs seconded to adjourn.  
MOTION CARRIED UNANIMOUSLY.

OPEN SESSION MINUTES

ARIZONA BOARD OF TECHNICAL REGISTRATION

AUGUST 28, 1987

(Some Items Taken Out of Sequence)

I. Call to Order

The regular quarter annual meeting of the State Board of Technical Registration held at Northern Arizona University, College of engineering in Flagstaff, Arizona 86011, was called to order by Chairman, Paul W. Cella at 9:00 a.m.

II. Roll Call

Ms. Douglas took roll call.

- PRESENT: Paul W. Cella, Chairman  
 Ronald J. Mlnarik, Vice Chairman  
 Charles E. O'Bannon, Secretary  
 Michael G. Jacobs, Member  
 Jack M. Kesler, Member  
 Stewart R. Palmer, Member  
 Kenneth L. Allen, Member  
 Ronald W. Dalrymple, Executive Director  
 LaVern Douglas, Licensing Manager  
 Y. H. Motomatsu, Enforcement Manager  
 Elvia Laborin, Administrative Secretary

- ABSENT: Peter A. Lendrum, Member  
 Ellen Waxman, Member

Those present constituted a quorum.

III. Adoption of Minutes - June 5, 1987

Mr. Palmer moved and Mr. Kesler seconded that the minutes from the June 5, 1987 meeting of the Board of Technical Registration be accepted after adding the reason for Mr. Kesler's absence as unforeseen circumstance. MOTION CARRIED UNANIMOUSLY.

IV. Public Comment

No public was present for comment.

## V. Request for Board Consideration

V. Subramani (Requesting registration by reciprocity)- Mr. Subramani was present to discuss his case. It was determined that Messrs. Allen and Lendrum meet with Mr. Subramani within 30 days and review his application and respond to Mr. Subramani within 15 days thereafter.

## VI. Other Business (EXHIBIT K)

## Discussion and Action on American Institute of Land Surveying

Mr. Raymond Connin of the Institute stated that the Institute's other programs, namely court reporting, paralegals and appraisal, enhanced the Land Surveying program by allowing access to other disciplines that are related to surveying. The Institute has two levels of training, basically, they coincide with the two levels of licensing examination; fundamentals of surveying--field skills--and principles and practice, first part being the science of surveying and second part the art. Mr. Connin stated that the Institute has more direct survey-related courses than the typical four-year programs. The Institute is requesting a standard acceptance from the Board of its graduates; that it recognize its 2-year academic program. ABET requires that a program be in existence for two years before they review it for accreditation; Mr. Connin felt that ABET is engineering and the Institute is not teaching engineering.

The Board does not have a "blanket" approval of a school curriculum. Mr. Kesler stated that ABET was a "vehicle" by which the Board could measure the Institute's program and suggested Dr. O'Bannon and himself form a committee to do that.

## VII. Request for Board Consideration (EXHIBIT A)

A. Raymond E. Connin (Review of application) - Mr. Connin was present to discuss his case. Dr. O'Bannon moved and Mr. Kesler seconded to allow Mr. Connin to take the second part of the Land Surveying exam. MOTION CARRIED UNANIMOUSLY.

B. R. Michael Tyson (Review of application) - Mr. Tyson and his attorney, Ms. Martha Blue, were present to defend his qualifications and AIPG Certificate. Mr. Jacobs moved and Mr. Kesler seconded that Mr. Tyson be held for the Principles and Practice part of the Geology Exam. MOTION CARRIED UNANIMOUSLY.

- C. David Sturgeon (Waiver of In-training Exam) - Mr. Sturgeon was present to discuss his case. Dr. O'Bannon moved and Mr. Kesler seconded to deny Mr. Sturgeon's request. MOTION CARRIED UNANIMOUSLY.

VIII. Other Business

- A. Discussion and Action on Photogrammetry and Surveying Registration (EXHIBIT K)

Mr. Kesler stated an Ad Hoc Committee had met and he had discussed this matter with other states representatives at the National NCEE Meeting and felt that what 32-101.19 states, that photogrammetry is Land Surveying, is correct. Mr. Kesler moved and Mr. Jacobs seconded that the Board interpret the use of photogrammetry as coming under title 32-101.19 and the final product signed and sealed by the proper registrant, engineer or land surveyor, and to be applied to the current rule change process. MOTION CARRIED UNANIMOUSLY.

Mr. Jeff Andrews of Andrews & Atherton, Inc. stated he wanted to clarify Mr. Kesler's definition of photogrammetry as it reads in Webster Dictionary: the art of science in making reliable measurements on photographs. He felt that there should be some responsibility for the final products; people who are preparing these maps are not qualified to do so. He said his personal preference was that of Canada's system where the professional societies do their own in-house registration and regulation of the professionals.

Larry Monrad, President, ACEA - Mr. Monrad stated that ACEA was interested in getting involved in any discussion of further branches of proficiency regarding the registration of engineers and land surveyors.

- B. Discussion and Action on Shop Drawing Sealing Requirements

Mr. Palmer briefed Mr. Allen on the subject--an Ad Hoc Committee in Tucson decided that shop drawings only had to be sealed if they were design drawings or if they were requested to be sealed by a governmental agency or the registrant. A second committee was formed in Phoenix because this was not acceptable to everybody and this exhibit is their report. Essentially what they're saying is that there is a difference between design drawings or calculations and

shop drawings. Mr. Dalrymple stated that he understood this committee to say that if the drawing contains architectural or engineering design features, it is considered to be a design drawing rather than a shop drawing and it should be stamped; if it is one that shows construction methods only, it does not have to be stamped.

Mr. Bert Wright, City of Tucson, Building Codes Department and representing the Fire Department, stated that he had read the Committee's definition of shop drawings and thought it was good, however, he believed it was subject to interpretation. Two words concerned him--illustrates and portions. He hoped the Board had received the information he had sent including a letter from Russell Fleming, Vice President of Engineering, National Fire Sprinkler Association. Fire protection systems correspond with the decision of how shop drawings are going to be handled.

Mr. Scott Grainger, Civil Engineer on Fire Protection, agreed with Mr. Wright on "specific portions for installation," defining what a shop drawing is, however it needs further definition. One item not discussed is fabrication drawings; these are sealed drawings but not necessarily by the original design team. Fabrication drawings are sealed, however, they are not design drawings.

Mr. Dalrymple was directed to request of professional groups and the Cities of Tucson and Phoenix samples of shop vs. design drawings.

IX. Recommendation for Enforcement Advisory Committee Membership

Engineering Committee - Dale W. Johnson, P.E., (Civil & Structural) (EXHIBIT B)

Mr. Palmer suggested that staff assign these recommendations to the Board member of the same discipline and closest in location before the meeting. Mr. Mlnarik moved and Mr. Kesler seconded to appoint Dr. O'Bannon to check Mr. Johnson's qualifications. MOTION CARRIED UNANIMOUSLY.

Vote to go to Executive Session

Mr. Cella moved and Mr. Palmer seconded to go to Executive Session. MOTION CARRIED UNANIMOUSLY.

## RETURN TO OPEN SESSION

## X. Enforcement Matters - Disciplinary Actions

1. C 85-221 BTR vs. Ronald E. Fridlind, Architect #10703  
Affixing seal to plans not prepared by himself or his bonafide employee

Mr. Cella declared a conflict of interest. Dr. O'Bannon moved and Mr. Palmer seconded to send to an Advisory Committee in Tucson for further recommendation. MOTION CARRIED.

2. C 86-057 BTR vs. Joe B. Young, Land Surveyor #14221  
Gross negligence; violation of codes; and failing to apply necessary technical knowledge and skill

Mr. Mlnarik moved and Dr. O'Bannon seconded to authorize the Chairman to sign the Consent Order of indefinite suspension, peer review, educational requirements and restitution. MOTION CARRIED UNANIMOUSLY.

3. C 86-131 BTR vs. Jay R. Anderson, P.E. (Civil) #19387  
Failing to apply necessary technical knowledge and skill

Mr. Mlnarik moved and Mr. Palmer seconded to dismiss. MOTION CARRIED UNANIMOUSLY.

4. C 86-138 BTR vs. Donald W. Foster, Architect #13978  
Violation of codes and failing to apply necessary technical knowledge and skill

Mr. Mlnarik moved and Mr. Palmer seconded to authorize the Chairman to sign the Consent Order of \$500 Administrative Penalty and Letter of Concern. MOTION CARRIED UNANIMOUSLY.

5. C 86-141 BTR vs. James A. Folkers, Land Surveyor #18215  
Failing to apply necessary technical knowledge and skill

Mr. Mlnarik moved and Mr. Palmer seconded to dismiss. MOTION CARRIED UNANIMOUSLY.

6. C 86-142 BTR vs. Ross H. Bern, Architect #11547  
Failing to apply necessary technical knowledge and skill and engaging in practice outside his category of registration
- Mr. Mlnarik moved and Mr. Palmer seconded to authorize the Chairman to sign the Consent Order of \$500 Administrative Penalty and Assurance of Discontinuance in Structural Engineering. MOTION CARRIED UNANIMOUSLY.
7. C 86-147 BTR vs. Timothy G. Kraft, Architect #08046  
Failing to affix his seal to calculations; affixing seal to plans not prepared by himself or his bonafide employee; engaging in practice outside his category of registration; and aiding and abetting
- Mr. Mlnarik moved and Mr. Palmer seconded to authorize the Chairman to sign the Consent Order of \$1000 Administrative Penalty and Letter of Discontinuance in Electrical Engineering. MOTION CARRIED UNANIMOUSLY.
8. C 86-149 BTR vs. Arnie Lahlum, P.E. (Civil) #05491  
Failing to apply the necessary technical knowledge and skill
- Mr. Mlnarik moved and Mr. Palmer seconded to dismiss. MOTION CARRIED UNANIMOUSLY.
9. C 86-151 BTR vs. Reynaldo Y. Sanchez, Land Surveyor #12536  
Engaging in practice outside his category of registration and failing to affix seal to professional documents
- Mr. Mlnarik moved and Mr. Palmer seconded to authorize Executive Director to send a Letter of Concern. MOTION CARRIED UNANIMOUSLY.
10. C 86-169 BTR vs. Garrett P. Westerhoff, P.E. (Civil) #14498  
Affixing seal to plans on a public works project
- Mr. Mlnarik moved and Mr. Palmer seconded to authorize Executive Director to send a Letter of Concern. MOTION CARRIED UNANIMOUSLY.

11. C 86-172 BTR vs. David F. Thomson, Architect #11570  
Failing to apply necessary technical knowledge and skill

Mr. Mlnarik moved and Mr. Palmer seconded to dismiss.  
MOTION CARRIED UNANIMOUSLY.

12. C 86-193 BTR vs. Dennis F. Keogh, P.E. (Civil)  
#11305  
Failing to apply necessary technical knowledge and skill

Mr. Mlnarik moved and Mr. Palmer seconded to dismiss.  
MOTION CARRIED UNANIMOUSLY.

13. C 86-197 BTR vs. Jon R. Hamilton, Architect #10587  
Engaging in practice outside his category of registration

Mr. Mlnarik moved and Mr. Palmer seconded to authorize Chairman to sign Consent Order of Assurance of Discontinuance in Electrical Engineering and Letter of Reprimand. MOTION CARRIED UNANIMOUSLY.

14. C 86-198 BTR vs. Morris Courtright, Jr., P.E.  
(Electrical) #07754  
Failing to apply necessary technical knowledge and skill

Mr. Mlnarik moved and Mr. Palmer seconded to authorize the Chairman to sign Consent Order of Letter of Reprimand. MOTION CARRIED UNANIMOUSLY.

15. C 86-209 BTR vs. Steven W. Kramer, P.E. (Mechanical)  
#19077  
Failing to sign an imprint of his seal

Mr. Mlnarik moved and Mr. Kesler seconded to authorize Executive Director to send a Letter of Concern and return check of \$500. MOTION CARRIED UNANIMOUSLY.

- XI. Evaluation Committees Report (EXHIBIT C)

Mr. Palmer moved and Mr. Kesler seconded to accept the Evaluation Committees Report as shown in Exhibit C.  
MOTION CARRIED UNANIMOUSLY.

## XII. Registration Grant List

(EXHIBIT D)

Mr. Mlnarik and Mr. Palmer seconded to grant registration numbers to applicants Body (Architects) through Trivedi (Structural Engineers), numbers 21167 through 21236, Blake through Zell (Engineers-in-Training), numbers 03930 through 03959, as shown in Exhibit D.

## XIII. Standing Committees Reports

## A. Education and Examination

Dr. O'Bannon stated he did not have anything to report.

## B. Legislative and Rules

Mr. Mlnarik stated he would give his report on Rules under XIII. N., Discussion of Rules.

## C. Budget

Mr. Dalrymple gave the budget report. The Budget Committee met August 27 and a tentative budget for FY 89 was prepared. The Budget Request was essentially a caretaker in that almost everything was going to be maintained at the level that it is presently. Because of the increase in Enforcement activity and applications for registration, the request includes a clerk typist; out-of-state travel is being increased considerably to be able to authorize more than two people per conference to familiarize the new members with the national associations; the request for equipment is for \$8,300 to allow the Board to purchase a sheet feeder for the mini computer printer in the Licensing section, a memory backup for the nine micro computers, a laser printer for newsletters, reducing money paid to print shops, bringing the total to \$674,000, making it necessary to raise fees for examinations by \$5.00 and renewal fees by \$2.00 per year.

## XIV. Request for Special Consideration When Taking Division C of Architect Exam - Leonard P. Miller (EXHIBIT E)

Mr. Kesler moved and Dr. O'Bannon seconded to contact NCARB about requirements for disabled applicants. MOTION CARRIED UNANIMOUSLY.

XV. Request for Board Consideration (EXHIBIT F)

- A. Rao Thallam (Requesting registration by reciprocity) - Mr. Palmer moved and Mr. Jacobs seconded to deny registration for lack of 24 months of experience and education. MOTION CARRIED UNANIMOUSLY.
- B. Joseph E. Jason (Paul Cella requested Board review) - Mr. Cella stated that Mr. Jason was registered as a Sanitary Engineer and wanted a Civil registration. It was determined that registration be granted at next Board meeting.
- C. Ronald E. Franz (Paul Cella requested Board review) - Mr. Cella stated that Mr. Franz was registered as a Sanitary Engineer and wanted a Civil registration. It was denied for lack of 9 months experience.
- D. Kevin J. McClintick (Review of application) - Dr. O'Bannon moved and Mr. Kesler seconded to deny his request for Civil registration because experience is in Structural and hold for the seismic exam. MOTION CARRIED UNANIMOUSLY.
- E. Jawaid Maqbool (Waiver of all exams) - Dr. O'Bannon moved and Mr. Kesler seconded to deny Mr. Maqbool's request. MOTION CARRIED UNANIMOUSLY.
- F. Jose Rosales (Review of application) - Mr. Palmer moved and Mr. Kesler seconded to deny for lack of experience and education. MOTION CARRIED UNANIMOUSLY.

XVI. Other Business

- A. Discussion and Action on Transportation Engineer Registration (EXHIBIT L)

Mr. Monrad stated that ACEA would like to be involved in any additional areas of proficiency being granted. Mr. Dalrymple stated that New Jersey and Oregon had been contacted on the registration of Transportation Engineers; New Jersey informed the Board that, contrary to what it was told, they do not license transportation engineers; Oregon sent information on their criteria for traffic engineering registration. NCEE responded that they prepare California's Traffic Engineer exam and that they could not find any corrected programs for transportation engineering; essentially NCEE believes that traffic engineers should take the civil engineering exam. California has not responded to the Board's request for a copy of the exam for review purposes.

Mr. Kesler moved and Mr. Jacobs seconded to leave transportation engineering under civil rather than make a new engineering category. Dr. O'Bannon abstained. MOTION CARRIED.

B. Discussion of Adoption of NCEE's Committee on Experience Qualifications Recommendation

Mr. Dalrymple stated NCEE's Committee Chairman told him that the Committee recommendation was that engineering experience be granted to people under criteria of the Model Rules; the experience must be progressive, that the work of engineering nature not be required to follow graduation in Model Rule 7B--originally stated that work was required after graduation, it has since been recommended to grant credit for work experience prior to graduation. Chairman \_\_\_ also pointed out that Model Rule also states that experience gained in the Armed Services should be recognized if it can be equated to civilian engineering experience; teaching experience should be credited for an unlimited amount; experience should be gained under the supervision of a professional registrant under ordinary circumstances but if experience was gained under a nonregistrant, the candidate should be given an opportunity to explain why the experience should be considered acceptable; experience should not be anticipated; concurrent time spent in engineering while attending school should be granted as one or the other but not both.

Mr. Dalrymple was directed to send Board members a copy of NCEE's Model Rules.

C. Discussion and Action on Fire Protection System Registration Requirement

Mr. Wright stated that he didn't think that modifications of fire protection systems that already exist and are already based on engineering criteria necessarily constitute design, and would like to have the choice of deciding whether a shop drawing was design or not.

Mr. Palmer volunteered to compile information on design drawings from the Board members. Mr. Wright stated he would compile samples by 10/1/87. Mr. Grainger volunteered to supply samples.

Dr. O'Bannon moved and Mr. Palmer seconded to extend the effective date of 1/1/88 to 4/1/88 for

D. Discussion on Sealing of documents Prepared by Computers when Disks are Provided a Client (EXHIBIT P)

A disk is the same as an incomplete drawing and not a record drawing until sealed.

Mr. Dalrymple was directed to write Mr. Essley that he had acted properly by marking disk "not for construction."

E. Discussion of Examination Sites

Ms. Douglas proposed the possibility of one examination site for the state in Phoenix; the number of applicants taking exams has increased considerably and it has become very difficult to find suitable places. A larger site would cost more, however, it would accommodate everybody. It was suggested that the examination fees be raised to supplement the sites rental at either Tucson, Flagstaff and Phoenix rather than have everybody come to Phoenix.

F. Discussion and Action on Certification of Development Plans

The new Chairman to appoint a committee to review this.

G. Discussion of Dennis Schneider (EXHIBIT N)

Mr. Dalrymple briefed Mr. Allen on this case. In 1985 a case file was opened on Mr. Schneider on an alleged incompetency charge on a survey he performed. Mr. Schneider was uncooperative by not bringing his field notes to the committee meeting. The Board later took action based on the staff report and committee recommendation. Mr. Schneider ignored the recommendations and didn't show up for the first or second formal hearings. The Board then took action to revoke his license. He contacted some legislators and they discussed Mr. Schneider's case with the Assistant Attorney General and Mr. Dalrymple and they told Mr. Schneider that they were satisfied with the action the Board had taken and that he contact the Board for any further consideration in this matter. This letter is the result and in which he states he is ready to continue negotiations. The Attorney General's recommendation is that the Board follow all the rules and regulations pertaining to the contested case. In the Attorney General's opinion, the case is properly closed and should remain closed.

Mr. Kesler moved and Dr. O'Bannon seconded to have past action taken on Mr. Schneider's case stand. Mr. Dalrymple was directed to respond to Mr. Schneider's letter with such information with a copy to Senator DeLong. MOTION CARRIED UNANIMOUSLY.

H. Discussion of Legislative Draft (Land Surveyors) (EXHIBITO)

The Governor's Arizona State Mapping Advisory Committee proposes to introduce this exhibit to Legislature. They propose to do away with Geology, Landscape Architecture and Assaying.

Mr. Jeff Andrews stated he had a copy of the draft that was presented to the Arizona Professional Land Surveyors in July; no action was taken. He stated that ASMAC was a committee of surveyors who are appointed by the Governor.

I. Discussion and Action on Construction Observation - Attorney General Opinion I87-022 (R86-196)

Mr. Dalrymple stated that the Attorney General's office had requested that the Board identify what it sees construction observation and construction inspection to be before it requests a formal written opinion. The new chairman to set up a committee to review.

J. Discussion and Action on Exam Review Procedure (EXHIBIT M)

Mr. Dalrymple stated the exhibit was a copy of the draft he had taken to the Assistant Attorney General for review and his response. The Assistant Attorney General is concerned with the rising number of examination appeals; he is recommending to get with the other regulatory agencies. Two ways to eliminate appeals for examinations are statutory authority in \_\_\_ code, which says there will be no appeals, and all regulatory agencies went together and drafted a change to the Administrative Procedures Act and said that in the case of national examinations, there would be a waiver from the appeal procedures in the Administrative Procedures Act; the latter having a better chance of passing.

K. Discussion of Need for Assays on Precious Metals Imported into the State with a Statement of Purity

Mr. Dalrymple stated that this matter was submitted to the Attorney General's office and the process was not done yet.

L. Discussion of Permissible Materials to be Utilized at Examinations

Mr. Palmer stated that there had been complaints on the type and number of calculators permitted at examinations. The instructions state "calculators" but only one calculator has been allowed in the past. Mr. Cella suggested taking out the number of "chips" permitted in the instructions.

M. Discussion of Rules

Mr. Mlnarik stated that the Rules Committee had met numerous times since the last meeting and felt that the full Board should address several items within the Rules. R4-30-221 - Engineering branches recognized as well as the definition of practice within those various branches.

Structural - "waterworks" is an antiquated term; ACEA volunteered to write a clear definition

Civil and Sanitary - any engineer who designs tunnels, bridges, dams, storage elevators or structures should be required to take a structural/seismic examination.

Mechanical - plumbing

Aeronautical - out

Nuclear - in

R4-30-224 - "for the branches of Sanitary, Civil and Structural exam the Board will identify the testing content"

N. NCEE Meeting Report

Mr. Palmer stated that starting in April 1988 NCEE exams on professional practice will include a minimum of 25% of multiple choice questions including the economics question; the 25% will be divided between the disciplines. Mr. Dalrymple was appointed to the Legislative Guideline Committee; Mr. Kesler was appointed to the Land Surveying Committee; Mr. Palmer was appointed to the Auditing Examinations Committee. There was a change in the education requirement for Land Surveyors. The next national meeting is in Albuquerque in August 1988; the 1988 regional meeting will be held in Coeur d'Alane, Idaho and the 1989 regional meeting will be held in Alaska.

O. Discussion of Restriction of Engineering Practice Within Categories and Delineation of Practice

Discussed under Rules discussion.

P. Discussion of Proposed CLARB By-Laws

Mr. Dalrymple stated that CLARB wanted all its member Boards to use the UNE (national exam). CLARB is changing their prices for examinations every year; Mr. Dalrymple recommended that prices be changed no sooner than every three years. CLARB works on a calendar year schedule and Washington objected saying it would work better if they were on a fiscal year schedule as most of the states. Mr. Dalrymple thought CLARB should adopt NCEE's position rather than NCARB's on representation at the annual meetings; the proposed by-laws only authorize Board members to vote--if a Board member couldn't make the meeting, the staff member could not cast a vote. NCEE provides for this with a letter of authorization; NCARB does not.

XVII. Request for Regrade of April 1987 Engineer Examination (EXHIBIT Q)

A. James Reyes

Mr. Jacobs declared a conflict of interest. Mr. Kesler moved and Mr. Palmer seconded to send back to NCEE for regrading; too stiff a penalty for sloppy work. MOTION CARRIED UNANIMOUSLY.

B. James Skonhovd

Mr. Kesler moved and Mr. Palmer seconded to deny his request. MOTION CARRIED UNANIMOUSLY.

XVIII. Election of Officers

Mr. Palmer nominated Mr. Mlnarik for Chairman and Mr. Jacobs seconded it. Mr. Palmer nominated Mr. O'Bannon for Vice Chairman and Mr. Jacobs seconded it. Dr. Palmer nominated Mr. Kesler for Secretary and Mr. Jacobs seconded it. MOTIONS CARRIED UNANIMOUSLY.

Requirement (a) - Required determination of the correct preset value and the wiring diagram. The candidate determined 20410 instead of the correct value 22010.

Requirement (b) - Although based on incorrect is considered reasonable.

The scoring plan assigned a score of 6 to this preset (20410).

To get WKM and FM it would have taken a large number of values of weight to find maximum value of weight and FM. No differentiation is shown.

RE: 1987 UNE  
Passing level change to Section 4-Design Implementation

At the recent 1987 CLARB Annual Meeting, a lower passing level was adopted for Section 4 by the delegates from 67 to 61.

The amended motion passed by roll-call vote was:

"The UNE Committee be directed to lower the cut scores of the performance problems of Section 4 of the 1987 UNE by a maximum of .75 of the standard deviation but that no part be lowered below the lowest cut score recommended by any state board. The objective cut score will remain unchanged."

Mr. Mlnarik stated that who Mr. Bert Wright represented was missing from page four of the minutes. Mr. Kesler moved and Dr. O'Bannon seconded that the minutes from the August 28, 1987 meeting of the Board of Technical Registration be accepted after adding that Mr. Wright represented the City of Tucson Fire and Building Departments. MOTION CARRIED UNANIMOUSLY.

## IV. Public Comment

No public was present for comment.

## v. Other Business

## A. Discussion and action on photogrammetry and surveying registration (EXHIBIT A)

Messrs. Ellis O. Hyde and Peter A. Dyroff represented Kenney Aerial Mapping. Mr. Dyroff passed out job descriptions or hiring specifications for a senior photogrammetrist and a land surveyor within the state system to point out that they were two different fields.

Mr. Cella moved and Mr. Kesler seconded to clarify issues surrounding aerial surveying and photogrammetry. The use of "aerial" surveying does not violate the intent of the codes governing titles and advertising. Use of "aerial" surveying is akin to use of "locomotive" engineer. When an aerial surveying company provides services governed in A.R.S. 32-101.B(19) the company is then engaged in the practice of land surveying and must comply with A.R.S. 32-141. When an aerial surveying company is under contract to an engineering or land surveying company to provide photos, which, for example, would be used by the engineering or land surveying company to produce a topographic map, then the aerial surveying firm becomes a bonafide employee of that engineering or land surveying company who assumes responsibility for the final product. MOTION CARRIED UNANIMOUSLY.

## B. Discussion and action on fire protection system registration requirement (EXHIBIT A-1)

Mr. Burton W. Wright with the Arizona Fire Code Review Committee and the City of Tucson Fire Department, Greg Rechter with the City of Glendale Fire Department, Michael J. Madden with the City of Phoenix Fire Department, John Heil with Motorola, Jerry Watts, a Fire Protection Consultant in Tucson, were present.

Mr. Wright referred to the Board's newsletter where it states that at the June 1987 Board meeting a decision had been made relative to the issue that the design of fire protection systems was engineering and that these plans would have to be sealed. He stated that he had attended the September Board meeting and this decision had been delayed then because the Board had not seen all the information supplied by him. He wondered which of the two decisions was correct.

Mr. Cella stated that the Board had passed the ruling that fire sprinklers require a registrant's seal in June, however, later realizing that there could be some repercussions, the effective date was set for January 1, 1988 and that date was moved to April 1 leaving room for modification.

Mr. Wright argued that several states have recognized that the layout of a fire sprinkler system done in accordance with the National Fire Protection Association standard is not the practice of engineering; it is a matter that can competently be handled by a technician.

Mr. Brett DuMont with Grantham Fire Protection commented on the issue of establishing design criteria. He said that NFPA 13 clearly states that such design criteria is used in more particular occupancies; the less specifically covered are deferred to the approval of the authority having jurisdiction.

Mr. Mlnarik stated that Mr. Cella had received a letter from Mr. Belmont, attorney representing fire sprinkler contractors, who requested this item be placed on the March 1988 agenda when he would make a presentation.

Mr. Ruben L. Araza, Yuma Fire Marshal, thought it was a step in the right direction to consider fire sprinkler installation as engineering especially if it was going to affect fire flow requirements and underground installation of hydraulic systems.

Mr. Jerry Watts, representing Grainger Consulting Fire Protection Engineers in Tucson, stated that 90% of sprinkler (duct work) work is not addressed in the NFPA 13 Code.

Mr. Palmer recommended to wait until the March meeting for Mr. Belmont's presentation. Mr. Cella agreed and suggested that the committee prepare proposals for adoption.

Mr. Mlnarik asked Mr. Dalrymple to respond to Mr. Belmont's letter and suggest that he contact Messrs. Palmer and Cella, the Board's committee on this subject, before the March meeting.

Mr. Brown - Mr. Mlnarik informed the Board that Mr. Brown had passed away. Messrs. Mlnarik and Dalrymple will deliver award to Mrs. Brown.

C. Discussion and action on shop drawing sealing requirements (EXHIBIT B)

Mr. Cella stated he proposed to add different wording to the Rules under this item.

Mr. Larry Monrad stated he didn't believe it should be the Board's intent to have mechanical engineers seal shop drawings for air conditioning units, civil engineers seal shop drawings for pumps, or electrical engineers seal shop drawings for light fixtures and switch gear. Therefore, the status on shop drawings should remain that engineers and architects review shop drawings for compliance with the design and not be involved with stamping the drawings.

Mr. Cella stated that it was his intent to include in R4-30-304.A proposed changes (c) "an off-the-shelf manufactured piece of hardware," but he didn't know how to make it fit. He stated he hoped that after the Rules Draft was sent out to the professional societies for comments, they would respond with any necessary changes.

VI. Evaluation Committee's recommendation of Mr. Subramoni's application (EXHIBIT C)

Mr. Subramoni and Mr. Kent F. Larsen, his attorney, were present to discuss his case. Messrs. Allen and Lendrum were assigned to meet with Mr. Subramoni and review his file at the September meeting. Mr. Allen stated he had reviewed Mr. Subramoni's file and established that he be held for the seismic portion of the exam. Ms. Waxman moved and Mr. Kesler seconded to grant Mr. Subramoni registration according to A.R.S. 32-126 after taking and passing the seismic portion of the architectural exam. MOTION CARRIED UNANIMOUSLY.

VII. Request for Board Consideration (EXHIBIT D)

Jose M. Rosales (Registration by Reciprocity) - Mr. Rosales was present to discuss his case. Ms. Waxman moved and Mr. Kesler seconded to have Mr. Palmer review Mr. Rosales' file for possible granting of registration. MOTION CARRIED UNANIMOUSLY.

VIII. Recognition of Board Service Awards (EXHIBIT G)

A. Buzz Brown - Mr. Mlnarik informed the Board that Mr. Brown had passed away. Messrs. Mlnarik and Dalrymple will deliver award to Mrs. Brown.

- B. Reid Penland - Mr. Dalrymple was directed to forward Mr. Penland's award to his new address in California.
- IX. Evaluation Committee Reports (EXHIBIT E)
- Mr. Cella moved and Mr. Lendrum seconded to accept the report. MOTION CARRIED UNANIMOUSLY.
- X. Registration Grant List (EXHIBIT F)
- Mr. Cella moved and Mr. Palmer seconded to grant professional registration to Architect Paul Almy #21422 through Civil Engineer John Auginbaugh #21482, and Architect-in-training Stanley Axthelm #771 through Engineer-in-training Elaine Stewart #3980. MOTION CARRIED.
- XI. Standing Committee Reports
- A. Education and Examination
- Mr. Palmer reported that he requested of Ms. Douglas to obtain copies of examinations from NCARB for review. The committee will be reviewing the architectural exam.
- B. Legislative and Rules
- Mr. Cella stated that the 10/20/87 draft of the Rules was ready for public distribution after the changes which he had passed out and any other comments from the Board were included. Mr. Dalrymple was directed to mail copies of the draft to the professional societies and major cities with a note that the Board needed their written comments by February 1.
- C. Budget
- Dr. O'Bannon stated he had missed a budget meeting with Senator DeLong and asked to meet with Mr. Dalrymple for a briefing. Mr. Dalrymple stated that the Senator wanted to familiarize himself with what the Board was doing and whether the Board felt there was a need to have any legislation introduced. Mr. Palmer supported the state-wide budget cut. But due to hearings and additional registration, the Board may be forced to ask for a supplement to the budget.
- XII. Request for Board Consideration (EXHIBIT G)
- Jack D. Nations (Waiver of Geology Exam) - Mr. Nations withdrew his request pending information.

## XIII. Other Business

## A. Discussion on Experience under a Registrant Requirement

Mr. Mlnarik stated there had been several inquiries on this requirement--whether a rule could be adopted to allow individuals in government jobs who are not registered or working under a registrant, to obtain the experience necessary to take the exam. He stated that NCEE Model Code has a stipulation that addresses an alternate to experience under a registrant. No action taken.

## B. Discussion and Review of California Architectural Exam (EXHIBIT H)

Mr. Dalrymple stated that California has passed a statute that allows them to reciprocate the states that will recognize the new California Architectural Examination. The Board has a choice to take action at this time to review the California and the NCARB exams or wait until the issue is before the Board and require that the applicant demonstrate the similarity of the two examinations. Mr. Lendrum moved and Mr. Allen seconded not to act on this at this time. MOTION CARRIED. Dr. O'Bannon abstained.

## C. Discussion and Action on Certification of the American Institute of Land Surveying (EXHIBIT I)

Mr. Kesler moved and Dr. O'Bannon seconded to grant applicants graduates of the Institute's 2-year program 12 months experience credit. MOTION CARRIED UNANIMOUSLY.

## XIV. Request for Board Consideration

Lloyd C. Foster (Electrical Engineer application--experience under mechanical registrant) - Dr. O'Bannon moved and Mr. Cella seconded to grant Mr. Foster credit for his 4-year education and 2-year work experience and require that he work at least two years under an electrical engineer before being allowed to take the exam. MOTION CARRIED.

Mr. Cella stated that the Board has a problem with NCARB's regrading procedure. He requested the Board write NCARB to inform them the problem the Board was having with the appeal process and how their policies are inconsistent with what the law says. The Examination Committee was asked to handle.

## XV. Other Business

- A. Discussion and Action on Construction Observation - Board Response to Engineering Association letter of June 4, 1987 (EXHIBIT J)

Mr. Dalrymple stated staff had sent out questionnaires to advisory committees asking what construction observation was in order to guide the Attorney General's office on a ruling as to whether or not construction observation has to be done on nonexempt projects.

- B. Discussion and Action on Exam Review and Appeal Procedure (EXHIBIT K.)

Mr. Mlnarik stated the lengthy appeal process needed to be accelerated from the approximate three months it now took before the appeal was heard. The purpose of the handout is to serve as a procedure information sheet for applicants.

Mr. Harris stated that item XII.K. should be included in this discussion because of the relativity with this item. He felt that it was in part the bottom line in essence of the appeal procedure; the exam is used as a proxy to allow the Board to evaluate a candidate's qualifications for registration. In the procedure to evaluate the examination, the Board needs to examine carefully what the examinations actually test. The Board is at the "mercy" of NCEE, NCARB and CLARB to prepare an exam that is appropriate. However, they have not been very accommodating in meeting challenges that are presented to them. He stated the Board should find out what its focus is going to be in the use of the exam and then communicate with the testing organizations and state the Board's needs.

Mr. Mlnarik suggested to have the Examination Committee review this procedure.

- C. Discussion on Criteria used for grading NCEE and NCARB Examinations

Mr. Cella stated that the Board has a problem with NCARB's regrading procedure. He suggested the Board write NCARB to inform them the problems the Board was having with the appeal process and how their methods are inconsistent with what the law says. The Examination Committee was asked to handle.

- D. Discussion of need for assays on precious metals imported into the state with a statement of purity

Mr. Harris stated he had submitted a request for an opinion to the Attorney General and had not received a response yet.

- E. Discussion and action on recording of surveys (EXHIBIT L)

Mr. Kesler stated that several registrants, including himself, were asked by staff what they felt needed to be recorded and what didn't. He felt that the most important thing a land surveyor does is to husband the chain of evidence that maintains titles to property; without recording plats of surveys, this process is often lost in records that don't get recorded. If recording of surveys became mandatory the Recorder's office would become inundated. Mr. Dalrymple stated there apparently was no agreement in the professional land surveyor community as to what material discrepancy is and when a plat needs to be recorded. Mr. Kesler volunteered to research and draft a definition of material discrepancy to send out. Dr. O'Bannon moved and Mr. Palmer seconded to have Mr. Kesler follow through with his suggestion. MOTION CARRIED UNANIMOUSLY.

- F. Discussion and action on setting of "approximate" corners by land surveyors (EXHIBIT M)

Mr. Kesler stated this was due to an investigation of alleged impropriety by a land surveyor--this individual took it upon himself to establish "approximate" property corners in an old existing subdivision, which is not what land surveyors are registered to do. Dr. O'Bannon moved and Mr. Cella seconded that a surveyor may put in the approximate lot corners if he uses temporary material and marks them "approximate." Roll call vote was taken: Messrs. Cella, O'Bannon, Lendrum and Mlnarik voted yea, and Kesler, Palmer and Jacobs voted nay (Mr. Allen was out of the room and Ms. Waxman had left). MOTION CARRIED.

- G. Discussion and action on October 1987 geologist exam - missing page on four exams (EXHIBIT N)

Dr. O'Bannon moved and Mr. Palmer seconded to hold in abeyance until the scores come in. MOTION CARRIED UNANIMOUSLY.

## XVI. CLARB ANNUAL MEETING REPORT

## A. Discussion of changes in uniform national exam

Mr. Mlnarik stated CLARB was changing to a 5-part, 2 1/2-day exam, which will have the grading part separate from the design implementation section that they had before.

## B. Discussion and action on CLARB survey request on publication of pass-fail rates

Mr. Mlnarik asked whether or not the Board would be interested in authorizing the publishing of pass-fail information relative to its candidates by subject areas--by numbers rather than by individuals. This information would include the number of candidates taking each part and the percentage passing each part. Dr. O'Bannon moved and Mr. Cella seconded to make this information available. MOTION CARRIED UNANIMOUSLY.

## XVII. Rescoring results of April 1987 engineer examination

## A. James Reyes

Ms. Douglas stated Mr. Reyes had been given 1 additional point. Dr. O'Bannon moved and Mr. Palmer seconded to accept the rescoring results. MOTION CARRIED UNANIMOUSLY.

## B. Mark Chalmers

Ms. Douglas stated Mr. Chalmers had not been given any additional points. Mr. Kesler moved and Dr. O'Bannon seconded to accept the rescoring results. MOTION CARRIED UNANIMOUSLY.

## XVIII. Request for regrade of June 1987 architect and landscape architect examinations (EXHIBIT O)

## A. Vincent V. Catalano (Architect)

Mr. Cella moved and Dr. O'Bannon seconded to contact NCARB asking them for a list of the specific errors made and Mr. Palmer added to let them know that the Board is not satisfied with their grading procedure. MOTION CARRIED UNANIMOUSLY.

## B. David J. Ritchie (Landscape Architect)

Mr. Mlnarik moved and Mr. Palmer seconded that Section 4(A) Question 9, Section 4(B) Question 2, and Section 4 (C) Question 2 be sent back to grader for review. MOTION CARRIED UNANIMOUSLY.

## C. Stan Hernandez (Architect)

Mr. Cella moved and Dr. O'Bannon seconded to contact NCARB asking them for a list of the specific errors made and Mr. Palmer added to let them know that the Board is not satisfied with their grading procedure. MOTION CARRIED UNANIMOUSLY.

## XIX. Request for Hearing (EXHIBIT P)

## A. Terry C. Worcester (June 1987 Architect Examination-Division C)

Mr. Cella moved and Mr. Kesler seconded to send back to NCARB for specific response rather than a generic one. March 11 was set for hearing if there was still a need for one after NCARB's response. Mr. Dalrymple was to contact Mr. Worcester and inform him of such action. MOTION CARRIED UNANIMOUSLY.

## B. V. S. Subramoni (Registration without examination)

Resolved under VI.

## XX. Charles Saletta Hearing

## A. Hearing Date

Dr. O'Bannon moved and Mr. Cella seconded to set January 15 as hearing date for Mr. Saletta. MOTION CARRIED UNANIMOUSLY.

## B. Discussion of possible need for hearing officer

Dr. O'Bannon moved and Mr. Lendrum seconded that a hearing officer was not necessary for this hearing. MOTION CARRIED UNANIMOUSLY.

## XXI. Discussion of Foreign Education Evaluation Services

Mr. Dalrymple stated that both NCEE and NCARB used World Education Services for their evaluations. Changes have been made in the proposed new Rules to include a fee for the candidate to pay for this evaluation. Mr. Cella moved and Mr. Kesler seconded to require the use of World Education Services to evaluate foreign education credentials when it is determined necessary by the Evaluation Committee. MOTION CARRIED.

## XXII. Lapsed Registrations (EXHIBIT Q)

Mr. Dalrymple stated that the list contained names of registrants that had been lapsed in excess of three years. Attempts had been made to contact people in Phoenix and Tucson by telephone. Mr. Kesler moved and Dr. O'Bannon seconded authorization to drop the list of names. MOTION CARRIED UNANIMOUSLY.

## XXIII. Enforcement Matters

## A. Disciplinary Actions

1. C 84-120 BTR vs. Roger W. Gallagher, P.E. (Civil) #12868, (Mechanical) #09036, (Structural) #13163  
Gross negligence, engaging in practice outside his category of registration

Mr. Cella moved and Mr. Kesler seconded to accept the signed Consent Agreement for \$2,500.00 Administrative Penalty. MOTION CARRIED UNANIMOUSLY.

2. C 86-092 BTR vs. Marlin L. Slocum, P.E. (Civil) #10654  
Gross negligence; failure to comply with local building codes, failure to apply necessary technical knowledge and skill; engaging in practice outside registration

Dr. O'Bannon moved and Mr. Lendrum seconded to accept the Consent Agreement for voluntary surrender of registration, which was revoked. MOTION CARRIED UNANIMOUSLY.

3. C 86-178 BTR vs. John S. Walzky, Jr., P.E. (Mechanical) #28191  
Failing to apply technical knowledge and skill

Dr. O'Bannon moved and Mr. Kesler seconded to send back to staff to negotiate Consent Order. MOTION CARRIED UNANIMOUSLY.

3. C 86-113 BTR vs. Marion C. Allison, P.E. (Civil)  
#05786  
Other misconduct

Dr. O'Bannon moved and Mr. Kesler seconded to monitor renewal of license since it had expired. MOTION CARRIED UNANIMOUSLY.

4. C 86-128 BTR vs. Grove M. Garrison, P.E. (Civil)  
#06562 and Land Surveyor #10845  
Deceit and misrepresentation; adverse civil adjudication; failing to apply necessary technical knowledge and skill; failing to use identifying markers and gross negligence

Mr. Mlnarik had a conflict of interest. Mr. Cella moved and Mr. Lendrum seconded to accept signed Consent Agreement to suspend his land surveyor license for 12 months and upon reinstatement, a peer review of 12 months or 6 projects. MOTION CARRIED.

5. C 86-133 BTR vs. Chris Doran, Architect #11002  
Engaging in practice with an expired license; failing to apply the necessary knowledge and skill; failing to affix seal to drawings, maps or specifications; failing to inform client that master bedroom wall structure was not erected to approved drawing; failing to comply with a Board order restricting structural engineering practice

Dr. O'Bannon had a conflict of interest. Mr. Cella moved and Mr. Kesler seconded to send back to staff to renegotiate consent. MOTION CARRIED.

6. C 86-162 BTR vs. Marlin L. Slocum, P.E. (Civil)  
#10654  
Failing to apply necessary technical knowledge and skill; engaging in practice outside his category of registration; gross negligence and incompetence

Mr. Lendrum moved and Mr. Cella seconded to accept the Consent Agreement for voluntary surrender of registration, which was revoked. MOTION CARRIED UNANIMOUSLY.

7. C 86-179 BTR vs. John S. Malahy, Jr., P.E.  
(Mechanical) #08491  
Failing to apply technical knowledge and skill

Dr. O'Bannon moved and Mr. Kesler seconded to send back to staff to negotiate Consent Order. MOTION CARRIED UNANIMOUSLY.

B. Non-Disciplinary Actions

C 85-142

BTR vs. Donald A. Morey, Land Surveyor

Mr. Kesler moved and Mr. Palmer seconded to remove Mr. Bossert as peer reviewer and appoint Mr. Meggitt. Dr. O'Bannon added not to have Mr. Bossert do peer reviews again. MOTION CARRIED UNANIMOUSLY.

C. Recommendation for Enforcement Advisory Committee membership

Engineering Committee: Joe R. Arechavaleta, P.E. (Electrical)

Dr. O'Bannon moved and Mr. Kesler seconded to appoint Mr. Arechavaleta to the Engineering Advisory Committee. MOTION CARRIED UNANIMOUSLY.

It was the Board's decision to continue Enforcement items at a meeting on January 15.

XXIV. Future Board Items

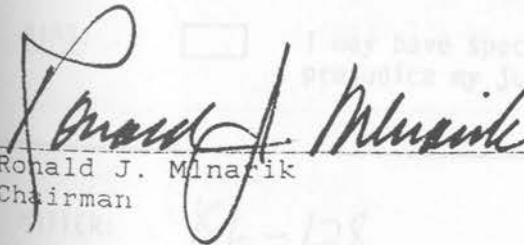

To be discussed at January 15 meeting.

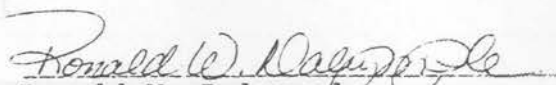

XXV. Future Board Meetings

March 4, June 3 and August 26 were set for the next three quarterly Board meetings.

XXVI. Adjournment

Mr. Kesler moved and Mr. Palmer seconded to adjourn. MOTION CARRIED UNANIMOUSLY.
